A PREMIUM GLASS SOLUTION FOR YOUR SPACES

As a significant component in a shower enclosure, we ensure to use the highest quality of toughened or tempered heat-soaked glass that conforms to safety standards. We design our shower enclosures with industry-grade materials to bring you closer to a redefined bathing space.

 5 times stronger than normal/annealed glass

 Available in 8mm thickness

 Shock- and impact-resistant

Three glass options available:

Clear

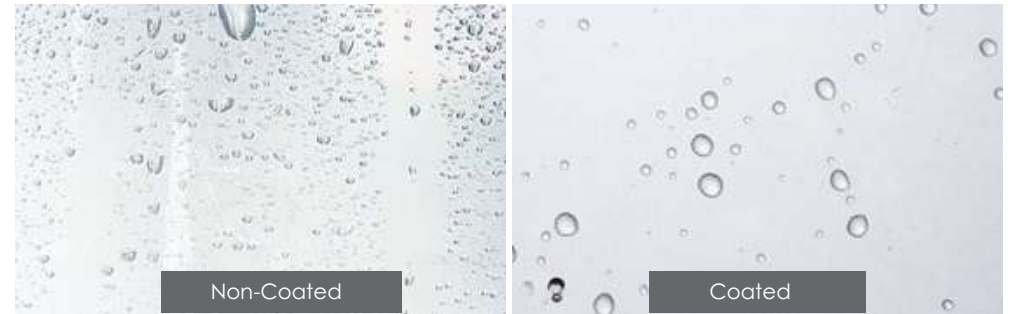

Tinted

Designer Frosted Film (Available in Multiple Options)

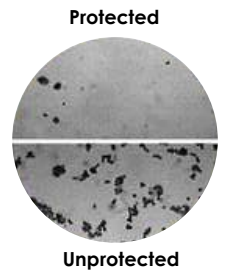

SHOWER COAT TECHNOLOGY

Cleaner, Healthier Spaces Now Made Possible!

Typically, hard water usage results in water-resistant spots to appear on unprotected glass, giving it an unappealing appearance. Additionally, limescale from the hard water etches itself onto the glass surface, with high levels of humidity accelerating the corrosion process.

Our easy-to-maintain shower enclosures are manufactured with an exceptional "Shower Coat Technology" that surpasses normal glass with a variety of features to ensure its appearance and durability.

Hydrophobic and anti-limescale coating for lasting protection

Glass resistant to bacteria, stains, scratches and corrosion for hygienic bathrooms

Lowered impact of pollutant exposure for reduced maintenance costs

Reduced cleaning time to save effort

Optically clear glass for pristine appearance

No requirement of harsh and abrasive cleaning products

Fluted and acid-etched glass solutions are available, customized to meet your specific requirements.

SHOWER TRAYS

The Ready-to-Assemble Shower Kit Concept.

- This concept offers a carefully curated selection of essential fittings and glass components packaged together, simplifying the planning and installation process. Designed to enhance convenience, this approach ensures customers have everything required to assemble a sleek, modern shower enclosure with ease.

Mastering Glass Artistry

- System10 leads the industry with 10 years of experience in glass processing.
- We excel in glass artistry, appreciating its significance in modern architecture and design.
- Our expertise enables us to showcase glass's versatility and visual appeal, making it a cornerstone of contemporary trends.

Blending Functionality and Creativity

- System10 shower enclosures embody the perfect fusion of practicality and technical finesse.
- Each enclosure is crafted to satisfy practical requirements while reflecting modern lifestyles and artistic expression.

Uncompromising Quality and Craftsmanship

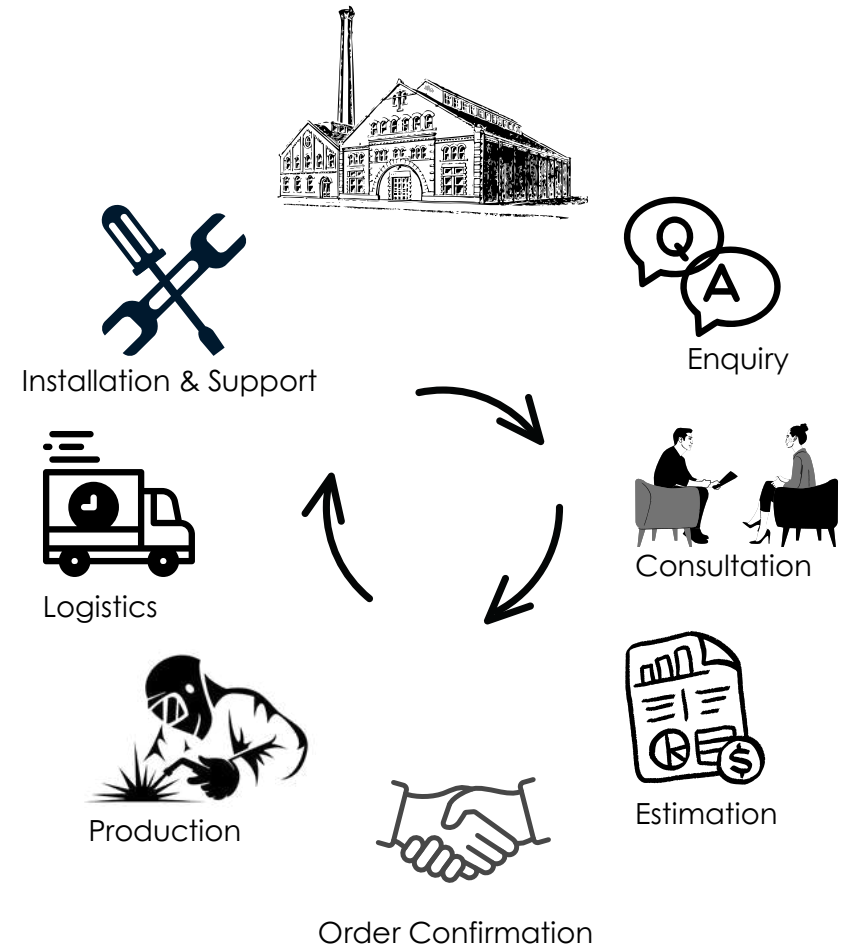

- System10 products maintain the highest quality of standards and artisanship.
- Every enclosure is carefully constructed to achieve a balanced blend of form and function, customised to individual preferences.

Innovative Frameless Shower Glass Partitions

- Each enclosure harmoniously merges form and function, tailored to individual tastes, to create a masterpiece in every space.

SEAMLESS ORDER PROCESS

From initial consultation to final installation, we ensure a smooth and stress-free process for fitting your shower enclosures, tailored to your space.
